UNSTITCHED NARRATIVE

Unstitched Narrative presents Panchali Sheth's paintings, works on paper, and installations that explore how the past and present meet in contemporary form. Inspired by the visual language of Indian miniatures and its narrative, Sheth reimagines traditional motifs through abstraction, gesture, and vibrant colours. Her works unravel layered memories, stories, and emotions threads that connect culture, history, and personal experience. Through this blending of old and new, *Unstitched Narrative* becomes a space where time overlaps and meanings shift, inviting viewers to reflect on how inherited traditions can find fresh expression in today's world.
